

BAA MASTER ROADMAP — 62-MODULE STATUS APPENDIX

This appendix reproduces the roadmap's current evidence/status snapshot. It is intentionally separate from the detailed module descriptions so the status can be reviewed without confusing roadmap evidence with the blueprint's desired future scope.

M	Module	Roadmap status	Phase
1	 AI Mode	 Not evidenced	1
2	 Custom / Individual Mode	 Requires mapping	1
3	 Hybrid Mode	 Requires mapping	1
4	 AI Tutor	 Implemented foundation	1
5	 AI Mentor Chat	 Not separately evidenced	1
6	 Smart Assessment System	 Partial	1
7	 Transparent AI Evaluation	 Implemented/tested foundation	1
8	 AI Homework Scanner	 Missing — next candidate	1
9	 AI Learning Memory	 Implemented foundation	1
10	 AI Confidence Meter	 Partial	1
11	 AI Planner	 Implemented foundation	2
12	 AI Guardian	 Not implemented	2
13	 AI Prediction Engine	 Requires mapping	2
14	 Parent Dashboard	 Requires mapping	2
15	 Parent Approval Mode	 Requires mapping	2
16	 Teacher Recommendation System	 Requires mapping	2
17	 Teacher Analytics	 Requires mapping	2
18	 School Calendar Integration	 Requires mapping	2
19	 AI Learning Passport	 Requires mapping	2
20	 AI Career & Future Planning Center	 Requires mapping	2
21	 Personalized Practice Engine	 Requires mapping	3
22	 AI Weakness Detection	 Requires mapping	3
23	 AI Strength Recognition	 Requires mapping	3
24	 AI Revision Engine	 Partial	3
25	 AI Goal Tracker	 Implemented foundation	3
26	 AI Notes Generator	 Requires mapping	3
27	 AI Learning Resources	 Requires mapping	3
28	 AI Explain Like... Mode	 Requires mapping	3
29	 AI Learning Paths	 Requires mapping	3
30	 Achievement & Rewards Center	 Preview/non-feature	3
31	 Multilingual Learning Ecosystem	 Requires mapping	4
32	 Voice Learning Assistant	 Partial	4
33	 Interactive Virtual Labs	 Requires mapping	4
34	 School & Coaching Management Portal	 Requires mapping	4
35	 Community & Collaboration	 Requires mapping	4
36	 AI Insights Dashboard	 Requires mapping	4
37	 AI Trust, Privacy & Compliance Center	 Trust/privacy foundation	4

M	Module	Roadmap status	Phase
38	□ Explainable AI Framework	□ Explainability foundation	4
39	♾ AI Review & Appeal System	□ Review/appeal foundation	4
40	□ Curriculum & Board Intelligence	□ Requires mapping	4
41	□ Smart Low-Bandwidth Learning	□ Requires mapping	5
42	□ AI Safety & Anti-Cheating System	□ Requires mapping	5
43	□ AI Scholarship Finder	□ Requires mapping	5
44	□ Internship & Job Preparation Hub	□ Requires mapping	5
45	□□ Mentor Marketplace	□ Requires mapping	5
46	□ School ERP Integration	□ Requires mapping	5
47	□ Institution Analytics Portal	□ Requires mapping	5
48	□ Global Student Collaboration	□ Requires mapping	5
49	□ Olympiad & Competition Center	□ Requires mapping	5
50	□ Plugin & Integration Marketplace	□ Requires mapping	5
51	□ Learning Science & Pedagogy Framework	□ Requires mapping	6
52	□ Mistake Archeology & Confusion Map	□ Requires mapping	6
53	□ Learning Outcome Measurement	□ Requires mapping	6
54	□ Psychological Safety & Cognitive Recovery	□ Wellbeing foundation/partial	6
55	□ Student Data Trust & Fresh-Start Controls	□ Data-trust/fresh-start foundation	6
56	✂ Adaptive Pacing & Productive Planning	□ Requires mapping	6
57	□ Parent Learning Conversation Assistant	□ Requires mapping	6
58	□□ Teacher Diagnostic Snap & Differentiated Assignment	□ Requires mapping	6
59	♾ Human-in-the-Loop Learning Governance	□ Governance foundation/partial	6
60	♥ Emotion + Purpose Design System	□ Design/safety foundation/partial	6
61	□ One-Year Private Testing & Founder Lab	□ Requires mapping	6
62	□ BAA AI Council	□ Requires mapping	6

❑ ROADMAP STATUS LEGEND

- ❑ COMPLETE / FROZEN
- ❑ COMPLETE / VERIFIED FOUNDATION
- ❑ PARTIAL / NEEDS COMPLETION
- ❑ CONFIRMED PREVIEW / HONESTLY DISCLOSED NON-FEATURE
- ❑ NOT IMPLEMENTED
- ❑ STATUS TO VERIFY AGAINST CURRENT PROJECT
- ❑ FUTURE CHECKPOINT

❑ Important source rule

The roadmap states that the status snapshot must be recalculated after promoted checkpoints and must not be treated as a percentage of total BAA completion because Volume 2 A-T execution requirements are tracked separately.

The roadmap also states that a module cannot be marked complete merely because a UI tile, placeholder, mockup or navigation link exists. Completion requires the applicable Blueprint purpose at the appropriate architecture level, including relevant behavior, persistence, backend/AI integration, security, error handling, accessibility, verification and documentation.

❑ Mandatory scope areas: difficult modules, Modules 61–62, backend, database, security, offline/low-bandwidth, business, parent, teacher, school/institution and AI features remain in scope.
